RE: UCIDA Agenda Change &
 Genetic Stock Composition of
 Sockeye Salmon in Kodiak
 Management Area

Chairman Jensen and Board of Fish Members

I would like to go on record opposing the UCIDA agenda change as it does not meet the Board's agenda change request criteria.

I have been a commercial fisherman and salmon settler in the Kodiak management area for 37 years. The fishing time between June 23 - July 31 is critical to our family fishing business.

I feel the impacts to Kodiak would totally devastate this island community.

I urge you to not take this up out of cycle.

The genetic study offers no new information and there is no error in regulation to correct.

Sincerely yours
 Wendy Beck and Family
