

I am writing this because I'm apposed to the SE commercial shrimp season changing from October to May.

My husband and I have been involved in the commercial shrimping for @30 years.

I do not want to see the dates change due to warm weather conditions and possibility of lower quality of shrimp (soft).

I do not want to make it harder for the summer sport fisherman to get shrimp for their families.  
Due to commercial boats in summer fishing areas.
